## 1. INTRODUCTION

The Land Acquisition and Disposal Policy of the Municipality reflects the methodology and procedure for the sale and letting of various types of properties. In order to make available economic opportunities in the Municipality for local investors, this Municipality will in all Land Disposal and Letting matters, consider giving preference to local Investors.

## 2. KEY PRINCIPLES UNDERPINNING LAND POLICY

The Municipality reserves the right to decide in its sole discretion to dispose or let Council owned property and its decision in this regard is final.

A set of principles and values, which underpin land acquisition and disposal, is critical in guiding the process of policy formulation as well as its application. The land acquisition and disposal policy should aim to:-

- a) Redress past land ownership patterns to reflect the population demographics of the District.
- b) Ensure an equitable, flexible and transparent Policy which enables the efficient performance of appropriate land transactions to serve the diverse needs of the Municipality's Business Units and Communities.
- (c) Act in support of:-

i. Development of land, the local economy, provision of infrastructure and/or housing;

ii. Land use - Town planning scheme/ land information system;

(iii) The interest of the public and plight of the poor.

(iv) Rates systems.

(v) Local Agenda 21 principles of sustainable development and environmental preservation.

(d) Stimulate Economic Development.

To fulfil this aim, the Policy should:-

(i) Be equitable.

- (ii) Be flexible (always in a process of development).
- (iii) Enable efficient transactions to reduce bureaucracy
- (iv) Ensure appropriate land transactions.
- (v) Serve the needs of the Municipality's Departments and Communities.

### **3. KEY VALUES AND ISSUES**

- a) The evolving Land Disposal Framework for this Municipality must be informed by the legal and constitutional context within which Municipalities are operating. This is critical since the Constitution is the supreme law of the land.
- b) The Municipality has a core responsibility to acquire and avail land and buildings, in the first instance, for use by its Business Units for purposes of developing and maintaining Municipal infrastructure, promoting service delivery and for facilitating social and economic development, spatial integration and environmental sustainability. Immovable assets not required for these purposes are by implication surplus to Municipal needs although future requirements of the

Municipality must be acknowledged and hence the need to hold property in reserve.

- (c) The Municipality has a responsibility to acquire, manage, develop and release its real estate holdings and rights on behalf of its residents and ratepayers. The key consideration is that the best interests of the Municipality (and thus their residents) should be paramount in all real estate transactions that the Municipality enters into. This demands that in all transactions the Municipality enters into, there should be maximum benefit to it, its operational requirements and the broader community.
- (d) Certain interventions are regularly necessary in land transactions pursued by the Municipality as compared to those of the private property market. As the private market is solely concerned with maximising capital gain, as against the collective role of the Municipality in acting in the best interest of its citizens, it follows that the Municipality will not singularly follow the processes and values of that market.
- (e) Land and buildings affect the Municipality's entire organization and straddles all Units and Committees of the Municipality. Therefore, the Land Disposal Framework must act in support of principles and values such as economic development, social, economic and environmental sustainability, land use, housing, social and community infrastructure, physical infrastructure, biodiversity protection, culture and recreation.

- (f) Market forces will always be the point of departure in any land or property transaction and this must therefore be recognised and acknowledged.
- (g) A Policy in respect of immovable property includes any right, interest or servitude therein or there over and must also take account of other legislation, policies and practices relating to land use, health, environment (both natural and built), safety etc.
- (h) The Municipality in subscribing to affirmative action principles, must incorporate these principles in its' Land Disposal Framework, to redress practices in the past.

Where :-

Ps = Points scored from price of tender under consideration.

Pt = Rand value of tender under consideration.

Ph = Rand value of highest acceptable tender. It is noted that the 80 and 90 points in the case of an open tender, can be further divided into points for functionality and price. Tender documents

must contain a detailed breakdown of the points that will be awarded for various criteria.

## **8. APPLICATION**

This Land Disposal Policy Framework, must be applied to all Municipal owned properties and must be complied with in every case where the disposal and letting of immovable assets is dealt with. All applications must be referred in the first instance, to the Disposal Committee established in terms of Section 7 of this Disposal Policy.

## **9. METHODS OF DISPOSAL AND LETTING**

The disposal and letting of immovable property owned by the Thembelihle Municipality, will be conducted in accordance with one of the following described methods:

### **9.1 Sale Or Letting By Public Auction/Tender/Proposal Call**

All sales of immovable assets should be at current Market Value except when the public interest or the plight of the poor demands otherwise. All transactions are subject to the tendering and adjudication guidelines, contained in this policy. Other than in exceptional circumstances as prescribed in Item 11 of this Policy, all sales of immovable assets should be on Public Auction.

### **9.2 Donation “Gratis” Transfer**

The Letting of immovable assets, should be at a market related rental except when the economic and/or community value or the plight of the poor demands otherwise. Section 14 (2)(b) requires the Municipal Council to have regard to a fair market value of assets which includes rentals.

An Agreement of Lease, should be concluded, clearly describing all salient details i.e. the parties, immovable asset(s), rental payable, conditions, duration and breach of the Lease Agreement.

A cession of a Lease does not fall within the requirements of Section 14 of the MFMA.

## **9.4 Exchange**

The process of exchange means that a disposal and an acquisition is taking place simultaneously and therefore the rules of both must apply and usually occurs where one party approaches another to purchase an immovable asset and instead of a purchase price being agreed, the parties exchange ownership of their respective immovable assets.

Should one immovable asset be of a higher monetary value than the other, a cash payment equivalent to the shortfall (being the difference between the two values) shall be made by the party whose asset is of lesser value.

## **9.5 Public Private Partnership**

In the context of disposals, a PPP is a transaction between the Municipality and a private party.

A PPP agreement may only be entered following the compliance with Section 120 of the MFMA.

## **10. TRANSFER BETWEEN SPHERES OF GOVERNMENT**

Where the Council holds an immovable asset that is identified as essential for the furtherance of Socio-Economic objectives or owner occupation of spheres of government, transfer of such asset for this purpose shall, as much as possible, take preference over any other proposed disposal for which that asset may be earmarked. Such disposal shall be dealt with in terms of the requirements of the MFMA.

Transfer of immovable assets contemplated above shall be subject to a clearly defined reversionary clause, providing for a reversion of ownership to the Thembelihle Municipality , free

of charge, in the event that the immovable asset is no longer to be used for the specified socio-economic purpose or owner occupation by a government department concerned.

## **11. UNSOLICITED BIDS**

11.1 A Supply Chain Management Policy must state that the Municipality or Municipal entity is in terms of Section 113 of the MFMA not obliged to consider unsolicited bids received outside a normal bidding process.

11.1.1 If a Municipality or Municipal entity decides in terms of Section 113(2) of the MFMA to consider an unsolicited bid, it may do so only if:-

- (b) An explanation of the potential benefits for the Municipality or entity where it to accept the unsolicited bid; and
- (c) An invitation to the public or other potential suppliers to submit their comments within 30 days of the notice.  
Once the Municipality or Municipal entity has received written comments pursuant to sub regulation (3), it must submit such comments, including any responses from the unsolicited bidder, to the National Treasury and the relevant Provincial Treasury for comments.

The Adjudication Committee must consider the unsolicited bid and may award the bid or make a recommendation to the Accounting Officer, depending on its delegations.

A meeting of the Adjudication Committee to consider an unsolicited bid must be open to the public.

11.1.3 When considering the matter, the Adjudication Committee must take into account :-

- (a) Any comments submitted by the Public; and
- (b) Any written comments and recommendations of the National Treasury or the relevant Provincial Treasury.  
If any recommendations of the National Treasury or Provincial Treasury are rejected or not followed, the Accounting Officer must submit to the Auditor

General, the relevant Provincial Treasury and the National Treasury the reasons for rejecting or not following those recommendations.

Such submission must be made within seven days after the decision on the award of the unsolicited bid is taken, but no contract committing the Municipality or Municipal entity to the bid may be entered or signed within 30 days of the submission.

The requirements of the contents of 11.1 above, does not apply to unsolicited bids which are submitted in terms of Section 11.2 below.

## **11.2 Special Circumstances**

The Municipality acknowledges that in certain special circumstances property can be sold or let by Private Treaty. These special circumstances apply to the following categories of properties :-

This provision does not apply to Council owned property that is multi-tenanted. Such a sale must only take place after a proper cost benefit analysis has been undertaken. The analysis must include the following:-
  - (i) Current market value.

A political office-bearer or an official in the employ of the Municipality who, in his / her personal capacity, has a direct or indirect interest in an immovable asset proposed for disposal, shall declare such interest. Failure to disclose such interest will result in such sale or lease being cancelled forthwith and the employee / office bearer held responsible for wasted costs.

An official in the employ of the Municipality shall not act as a member of a panel responsible for assessing and adjudicating tenders relating to the proposed disposals if his / her

presence in such panel may potentially be deemed to be unfairly influential, discriminatory or in any manner contrary to the principles of this policy.

### **13. DISPOSAL OF RIGHTS IN IMMOVABLE ASSETS**

A servitude can be defined as a right which one person has over the immovable asset of another and includes instances in which the Municipality grants a party a right over a municipal owned immovable asset. Servitudes result in a burden on the immovable asset for extensive periods of time, sometimes permanently. It is for this reason that servitudes should only be granted after careful assessment of the impact of the proposed servitude on the immovable asset.

If the proposed servitude will result in the immovable asset being negatively affected, including the impairment of the ability to productively enjoy, utilize, permanently dispose or otherwise deal with the immovable asset, then such servitude must not be granted.

Servitudes may be granted to any person (private or state organ) upon payment of appropriate market related compensation by such person provided that where another organ of state requires a servitude for the benefit of the general public and subject to the necessary authority having been obtained, the payment to the granting of the servitude, may be waived. The party requiring the servitude, is responsible for all costs relating to the granting and registration of the servitude.
